

NEW TRANSPORT & PACKAGING SYSTEM

REGISTER NOW IN THE B2B PORTAL!

Supplier Bulletin #3 – September 2021

CONTEXT

1.

As you know, Stellantis is going to implement a new Transport Management System (TMS) and a new Container Management System (RPM) to optimize Logistics Transportation and increase visibility towards Manufacturing and Aftersales logistics flows.

2.

To ensure a smooth implementation of the system, Stellantis Suppliers have to take some actions in the B2B Portal to register on User Level to receive a Stellantis unique “User ID”.

- ✓ This “User ID” is to enable to get in a second step access to the new Transportation and Packaging System.
- ✓ Therefore it is essential that all Suppliers register their users in the B2B Portal and inform the Stellantis Competence Team during the onboarding process of this ID.

WITHOUT having a Stellantis ID, you will not be able to access the new Transportation Management System & Packaging System
