HOW TO PRESENT YOUR COMPANY?

Discover the procedure, step by step

In order to work with PSA Peugeot Citroën, your company must be referenced in our Purchasing Department's Suppliers Database. Click on the different stages to discover the associated requirements. Contextual help is provided at each step to guide you through the process.

I present my company | PSA evaluates me as a candidate

- 4 I SEND THE DATA FILE TO PSA
- 5 THE PURCHASING DEPARTMENT OF PSA CONSIDERS MY CANDIDATURE
- 6 THE PURCHASING DEPARTMENT OF PSA INFORMS ME

Stage 1: I get my data ready

To ensure a company has only one single data file in the Suppliers Database, PSA Peugeot Citroën uses the Dun & Bradstreet international database. This organisation has implemented an international numbering system (Data Universal Numbering System, or D-U-N-S® Number) that identifies each entity of a company through an individual number, according to its location. Once the D-U-N-S® Number has been assigned, it cannot be re-used for any other company. The D-U-N-S® Number linked to your company will be required when initialising your company's data file (stage 2)

Legal information and other company identification data will also be required for presenting your company:

- your company's national registration number
- your company's tax registration number
- the name of a document proving your company's legal existence. This document must include:

HELP

To request a D-U-N-S® Number, please consult the dedicated section of the [DUN&B website](#). Start by selecting your country in the list provided at the top of the website. You will then be automatically directed to the partner site corresponding to your country.
